

The Ocean's heart

AW25 collection

AW25

**“Close your eyes
and hear my voice sing.
When you come back from the dream’s bank
you will see the sun’s birth.**

**Like the waves say hello to the beach and then
say goodbye and go away,
after the night goes the day
and everything starts again.”**

Translated from my son’s book *Arruyos para dormir ovejas*
de Yolanda Reyes y Manu Montoya.

The word BaYiri means “to Invoke”.

With its roots in the Colombian Amazon, this word invites us to get closer to our Animal Spirits and celebrate special moments in our lives.

Each of BaYiri´s collection is a reminder about the importance of each of the creatures that share this planet with us.

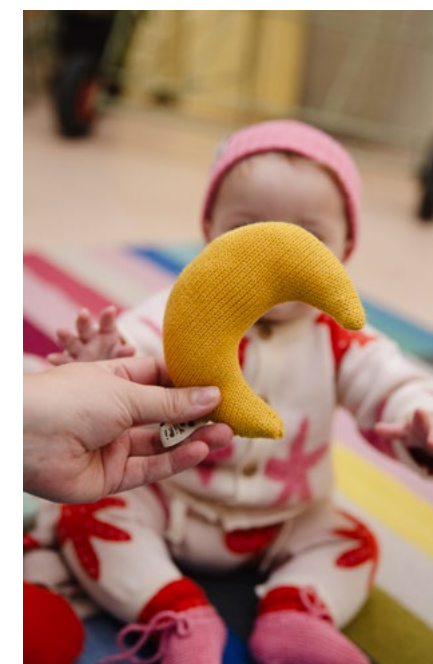

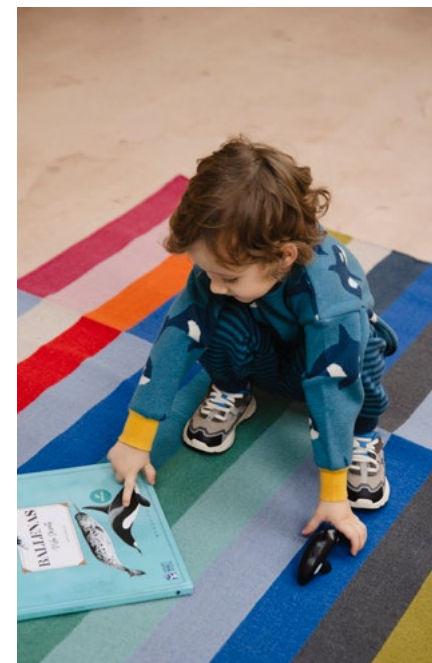

**“All Nature is connected
by invisible bonds”**

Translated from *La invención de la Naturaleza* de Andrea Wulf. pg 359

We knit high quality pieces made to last, designed to be treasured. Pieces that will be passed on for generations and share innumerable precious moments with their environmentally conscious humans.

Our eco-friendly knitwear is carefully made in a small family factory in Spain using the softest GOTS certified Organic Cotton and high quality Merino Wool under OEKO-TEX Standards 100. Because we care and we know you care too.

Created by Gisella Varón Neira © COPYRIGHT 2025 BaYiri

The Ocean's heart

This story starts with our blue planet. 70% Of its surface is Water, that's what makes our planet blue. The amazing creatures that live in the water are our planet's beating heart. Taking care of what keeps our planet alive and healthy should be our mission.

Magnificent creatures live in the ocean and move freely through the waters around the world making them their home. A moving home that varies depending on the moon phases and many other factors. It's a delicate ecosystem with us involved. We interact with water daily without even being conscious. Our water consumption, our garbage disposal, our buying decision... anything can end up affecting the ocean.

This collection is a reminder of the immense ocean and some of the very different type of creatures that maintain it's heart beating like Orca Whales, Starfishes and Crabs. From big to small, from predators to pray, they all matter.

Organic materials

This season we are introducing a new organic material to accompany our well know supersoft 100% Organic Cotton yarn. A high quality non itchy 100% Extra fine merino wool yarn. You will find the material logo on each outfit page.
